<p>Monday June 5</p> <p>(Sampling occurs throughout June)</p>	<p>Across the Province</p>	<p>Alberta Water Quality Awareness Day</p> <p>Alberta Water Quality Awareness (AWQA) Day is an exciting opportunity for Albertans to get out and test the quality of their local waters. The program provides free test kits for participants to learn about the water quality of any lake, stream or wetland of interest.</p> <p>It's fun and easy to participate: Register - Select a Site - Collect and Test Water - Share Findings The findings are pulled together to create a snapshot of water quality in the province. Collect your water samples anytime from June 1st to 30th. The main goal of the program is to build awareness of water resources through local monitoring of Alberta's surface waters. Anyone is invited to join the event. Have you ever wondered about the quality of a local stream, lake or wetland? Get out and test it!</p> <hr/> <p>Contact: Christina Hiebert - <i>Alberta Water Quality Awareness Day Partnership</i></p> <p>Phone: (780)427.3615</p> <p>Email: Christina.Hiebert@gov.ab.ca</p> <p>Website: www.awqa.ca</p>
---	-----------------------------------	--

<p>Saturday & Sunday June 10 & 11</p> <p>Event Time(s): 9 am - 4 pm</p>	<p>Calgary</p>	<p>EcoLiving Fair & EcoLiving Speaker's Series</p> <p>The EcoLiving Fair and EcoLiving Speaker's Series was created to assist a number of individuals and businesses that were not finding a true market for products that were designed to make better use of our natural resources and save consumers money. The Fair brings people with great ideas and initiatives together and offers this information, product or service to the community. There is a criteria list that each group must adhere to before they are able to exhibit or speak. This ensures that we are supporting worthy causes and direct consumers in a way that will make positive changes to their homes, community and environment.</p> <p>The purpose of the EcoLiving Fair and Speaker's Series is to educate the public about sustainability and alternative forms of energy; to demonstrate the new technologies available; and to endeavour to convince communities to reduce their impact on the environment.</p> <p>Location: SAIT Polytechnic 1301 - 16th Avenue NW</p> <hr/> <p>Contact: Judi Vandenbrink - <i>EcoLiving Events</i> Phone: (403) 288.6046 Email: info@ecolivingfair.ca Website: www.ecolivingfair.ca</p>

<p style="text-align: center;">Sunday June 11</p> <p>Event Time(s): In the morning service, 10 am to noontime</p>	<p>Calgary</p>	<p style="text-align: center;">Bicycle Sunday</p> <p>The Scarboro Senior Youth invites you to participate by riding your bicycle to church. We are asking all congregation members to, if they can, to take bicycle to church instead of driving. Or if you cannot bicycle then consider either taking bus, or carpooling with another church member. Or, if none of these work, then perhaps during the week before Jun 11th, take the bus to work one day instead of the car - or in some other small way plan to participate.</p> <p>On the Sunday we'll hopefully have many bicycles at church, parked on the front lawn (we'll have an attendant outside to look after the bikes during the service, no need to have a lock with you), we will have a greenhouse gases calculator available - to estimate the amount of greenhouse gas emissions we saved by cycling / bussing / car pooling.</p> <p>And we'll have literature available on the subject, and some give away prizes for, for e.g., the person / family, that has cycled the furthest. And we will have a bicycle maintenance workshop for anyone interested, taking place after the service. So, if you can, join us in the symbolic action! Good for our health, good for the creation; think globally, act locally! [If it's raining next week, we will postpone this event to another Sunday].</p> <p>Location: Scarboro United Church</p> <hr/> <p>Contact: Kevin Leitch - <i>Scarboro United Church</i> Phone: (403) 249-7613 Email: kevinleitch@gmail.com</p>
---	-----------------------	---
